Condos	<ul style="list-style-type: none"> <li>A property with the valuation done on an Individual Condominium Unit Appraisal Report (FNMA 1073).</li> <li>A property defined as a condominium by the Title Commitment.</li> <li>A property with stacked units.</li> <li>There is no minimum occupancy percentage requirement.</li> </ul>
Escrow Holdbacks	<ul style="list-style-type: none"> <li>Case-by-case</li> </ul>
Floor Rate	<ul style="list-style-type: none"> <li>Floor rate of 51 bps below the initial rate or 4.99%, whichever is greater, unless the initial start rate is less than 4.99%, then the floor rate will be equal to the initial start rate.</li> </ul>
Qualifying Rate ARM	<ul style="list-style-type: none"> <li>Typically, 2% above the start rate.</li> </ul>

## HOME EQUITY LINE OF CREDIT

Income	<ul style="list-style-type: none"> <li>▪ Self-Employed           <ul style="list-style-type: none"> <li>- When comparing the two-year period, if the most recent year is higher than the previous year, a true average is taken.</li> <li>- If the most recent year is less than the previous year, the income is analyzed to see the percentage of change. If the decrease is more than 20%, the lower income is used.</li> <li>- If DU/LP only asks for one-year taxes for s/e borrower, we are able to go this route. However, if the borrower also receives W-2's, we will need two years on this income. Using YTD paystub and last year's w-2 in addition to the tax income.</li> </ul> </li> <li>▪ K1 Income           <ul style="list-style-type: none"> <li>- Distributions</li> <li>- Ordinary Dividends</li> <li>- Depreciation – only if they are 100% owner</li> <li>- Dividends</li> <li>- Guaranteed Payments</li> <li>- Items Affecting Shareholder Basis</li> <li>- Ordinary business income: We can only use ordinary business income if the borrower is 100% owner of the company, and if the company doesn't show a loss. If the borrower is married and spouse is the other owner and together their ownership is 100%, we have the possibility of submitting for an exception to use ordinary business income. If we use Ordinary Business Income on the K1, we cannot also use income listed above.</li> <li>- Wage or salary income calculated from a self-employed borrower may only be used if the business income is showing a profit.</li> <li>- Allowances: if every period is the same amount, we can add this in to the base pay.</li> </ul> </li> <li>▪ Sch. C Income: Depreciation, Auto, use of home income can be used.</li> <li>▪ Varying hours or multiple types of pay (OT, education hours, shift differentials): We need a YE paystub breaking all of this down to segment each item out separately unless there is just OT. The written VOE typically does not segment more than OT and bonus/commission, and sometimes not even that. I am proactively telling everyone to submit with a YE paystub. If using previous job, request last paystub showing the breakdown. This is because of Ability to Repay.           <ul style="list-style-type: none"> <li>- Calculation on varying income: YTD vs. last year and if the current year is higher a true avg. is used. If YTD is less, we will use the 20% diff. rule. If the difference is greater than 20%, we use the lessor of the two.</li> </ul> </li> <li>▪ Bonus: Bonus income should be shown with YTD on the paystub. Written VOE or LOE from employer required.</li> <li>▪ Teacher income: If they are paid less than 12 months, use a run rate to calculate their income. Unless we can prove they are paid 12 months out-of-the-year, use their monthly base pay. Or get a copy of the contract to possibly use the 10 or 11 months of pay over a year.</li> </ul>
--------	--

## HOME EQUITY LINE OF CREDIT

- Run rate calculation: current YTD figures + all of the previous year then averaged out. If the current year is less than last year by more than a 20% difference, use the lessor of the two otherwise they are averaged.
- Royalty Income: We need the last two years' taxes and year-to-date, with an explanation to support the likeness to continue.
- Rental income: When a borrower has rental income, we will take 75% of the lease and "wash" payment. If any income is leftover, we will not add it to income. It is simply leftover.
- *For example:* Gross Rent \$1000.00/75% = 750.00 and mortgage payment is \$600.00, we do not add \$150 to income. If a rental property or a second home has an I/O mortgage, we must convert to a PITI payment for qualifying.
- Child Support or Alimony: required at least 3 years and 12 months' proof of payments.
- Borrower on leave: If Borrower will return to work before first Payment is due (the 23rd of month following funding), Mortgage Mac can use final prior to leave paystub to calculate full-time base income. If borrower has variable income (overtime, shift differentials, bonus, etc.), Mortgage Mac will average variable pay over two periods.
  - Submission must include: Letter from employee and employer stating return date and same hours; Final paystub prior to start of leave and VOE or benefits statement to show start of leave period. If Borrower will not return prior to first Payment, will qualify using leave pay.
- IRA depletion: 70% of account balance with 3 years continuance; Need letter from Financial Institution stating amount of monthly distribution if newly established or recently changed. Must be at 59.5 years old with no penalty for draw.
- Asset depletion: if the borrower is younger than 59.5 years old and have liquid assets that are not in a retirement account, 70% of the account balance and divided by 360 months. If the borrower is 59.5 years old, retirement accounts can be used.
- SSI/Pension income: use the actual amount of income received.
- Restricted stock income
  - Reflected as earning on the borrower's paystub
  - Verified as recurring with a year-end paystub or W-2 from the prior year and a current paystub
  - Show past and future vesting of shares via an employer-generated vesting schedule.
  - Show the existence of vested restricted stock, assets and the conversion of restricted stock
  - Trust income – will be verified by obtaining a copy of the trust agreement or the trustee's statement confirming the amount, frequency, and duration of payments.
- Offer Letter for Salary (closing before new job begins): Offer Letter must be signed by all parties; must start within 45 days of loan closing. Submit written VOE. Income commensurate with previous.
